

PRIVACY POLICY

HoneyBee & Hive Ecosystem | honeybeebash.com

1. Information Collection

We collect minimal data necessary to provide our services:

- **Hive Access:** Email addresses and payment identifiers are collected to manage repository access.
- **HiveHub:** We may collect IP addresses and basic system telemetry (e.g., Linux Distribution) for community voting and abuse prevention.

2. Data Usage

We do not sell, trade, or rent user data. Information is used solely for service delivery, access verification, and security monitoring.

3. LLM Data Handling

If you configure HoneyBee to use cloud-scale LLMs (e.g., Google Gemini), system data may be transmitted to those providers. Users are encouraged to use local Ollama instances for maximum privacy.
